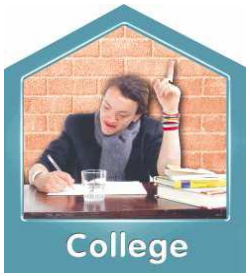
Occupational Therapy

How can the Occupational Therapist help you?

We will work with you, your family and carers to find out about you



We will see you at:

- home
- at college
- at day services

or

- in the community

We will train staff so they understand and meet your needs

We work with your health needs and:

Find out what you need help with in your everyday life

Carry out assessments to help with getting you the right package of care for supported living

Look at your sensory needs – balance, touch and body awareness

Look at your home or day service to find out if there is anything we can do to make them better for you
